

PENANG
INTERNATIONAL
Dental College

Annual Quality Assurance Report

2022

Penang International Dental College (PIDC) was established in the year 2006. It offers a unique Doctor of Dental Surgery (DDS) program where students pursue their first two years of pre-clinical studies at Saujana Putra Campus, MAHSA University and complete the final three years of clinical training at PIDC Campus, Butterworth. PIDC has successfully trained more than 800 dental graduates who are now serving in government services, working in private sector and pursuing post-graduation education in Malaysian and international universities.

PIDC has a fully equipped dental center that offers a holistic and comprehensive dental care for patients of all age groups. The center offers high quality dental treatment at a very affordable cost. This has made the center an important oral healthcare service provider for the general population as well as for the underprivileged community.

Our Vision

*To become a center of excellence
in training globally competent
oral health care professionals.*

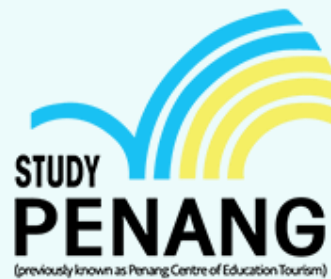

Our Mission

*To produce oral health care
professionals who emulate the
highest standard of
patient centered care
and acquire advance knowledge
and skills to meet the
changing needs of the community.*

Accreditations & Quality Certifications

Collaborating Universities / Agencies

PIDC's Quality Policy

Penang International Dental College is committed to continuous quality improvement of its core business process of teaching and learning in order to realize its vision of becoming a center of excellence in the training of globally competent oral health care professionals, through the application of the highest standards of patient centered care and acquisition of advanced knowledge and skills consistent with the changing needs of the community.
